

Erasmus+

Rules and regulations for GJU Erasmus + students mobility program for summer term 2023

Erasmus+ students mobility program description in five facts

1. Erasmus+ is the European Union's (EU) funding program for education and training between 2021 and 2027. The Erasmus+ program builds on the achievements of **30 years** of European programs in the fields of education, training, and youth.
2. German Jordanian University has successfully established several partnerships with distinguished universities all over Europe under Erasmus+ International Credit Mobility (ICM). It encourages the students to study, work and promote trans-national co-operation projects among Universities across European countries.
3. The Erasmus+ program provides GJU students with the opportunity to spend one semester at one of our partner universities.
4. The program supports selected students with a **monthly scholarship** that covers living expenses for up to five months as well as **travel allowance**. More details about what you can expect from your home University and the receiving University at each step of your mobility, and rights and obligations as ERASMUS students you will find in the [Erasmus Student Charter](#).
5. After the Erasmus+ students' mobility the students receive a transcript of records that is automatically recognized at GJU (based on the learning agreement). Furthermore, alumni of the Erasmus+ students mobility program are welcomed in an international community for networking, professional development and intercultural learning.

Rules and regulations for all applicants

- The applicant can name two (2) preferences for Universities at which s/he wants to study within the framework of the Erasmus+ program.
- **Applicants choosing Universities in the application form, are obliged to check the applicable education systems and curriculum (courses) of these Universities before submitting the application!**
- **The nomination to an Erasmus+ study stay is binding and excludes the student from the DAAD German Year scholarship 2023.**

- After the nomination the student has to prepare **the learning agreement**, which should be approved by either the exchange coordinator or the dean of the GJU school of the student.
- The student is obliged to **obtain min. 18 ECTS** credits per semester to fulfill requirements at his/her home institution. Subjects included in the partner university program shall not significantly differ from the curriculum at the School at GJU. Changes in the learning agreement are accepted during a period up **to 4 weeks** after the start of the semester at the host university.
- The student must then repay the Erasmus mobility grant (pro rata, if applicable) if she or he have acquired fewer than 18 ECTS per semester while studying abroad and there is no acceptable reason (e.g. certified illness, strike at the partner university). The student must therefore make sure that she or he attends all courses throughout the period of their studies abroad and take the relevant examinations. Thus, we advise to register for more than 18 ECTS in case a class is failed.
- Applicants who accepted the scholarship but do not start their Visa application process in time are excluded from the program and other programs.
- Cancellation of Erasmus+ students' mobility:
- **In case the student has to cancel the nomination for serious reasons (proof needs to be given), s/he must sign a declaration of cancelation and send it without delay via email to scholarship.coordinator@gju.edu.jo and their exchange coordinator/dean.**
- The student is also obliged to send an e-mail to the coordinator abroad (with copy to the scholarship coordinator for Erasmus+ mobility) with due explanation why the Erasmus+ mobility is cancelled
- Withdrawal from the nomination may affect future chances to be included into the Erasmus+ program and other scholarship programs (e.g. DAAD)

Important documents:

Application form (CV, transcript of records, letter of motivation, language certificates)

Erasmus+ Student Charta

Learning Agreement

Declaration of Cancelation

Transcript of Records

Date: 15. August 2022
